

December 3, 2008: AusSMC Briefing

The Great Artesian Basin: The next water crisis?

Angus Emmott

Pastoralist and natural resource management expert, independent chair of the Lake Eyre Basin Community Advisory Committee

Bio Note

Angus Emmott is a pastoralist and beef cattle producer, who, with his wife and two children, lives in the top end of the Queensland channel country. He is a keen natural historian with an interest in natural resource management. Angus has been involved in the Lake Eyre Basin cross-border natural resource management process since it began in the 1990's. He has been Independent Chair of the Lake Eyre Basin Community Advisory Committee (CAC) since 2003, and represents pastoral, community and natural resource management interests on the CAC. Angus is currently a Board member of the Great Artesian Basin Coordinating Committee, and a member of the Australian Floodplain Association. Angus is highly regarded by community, industry and the scientific community, and in 2004 he was awarded an Honorary Master of Science degree by Central Queensland University for his contribution to ecology.
