

10 April 2007: AusSMC Briefing on IPCC AR4- Working Group 2 Report:

“Climate Change 2007: Impacts, Adaptation and Vulnerability”

Professor Colin Woodroffe is a Professorial Fellow at the school of Earth and Environmental Sciences at the University of Wollongong and Coordinator of the GeoQuEST Research Centre. He is a Lead Author of Chapter 6 that focuses on coastal systems and low lying areas.

Bio Note

Colin is a coastal geomorphologist, with an international research focus on the morphology, stratigraphy and sedimentary dynamics of tropical and subtropical coasts, and the application of Geographical Information Systems (GIS) to the study of processes and change in the coastal zone.

He is the author of a book, *Coasts: form process and evolution*.

The Australian Science Media Centre (AusSMC) is an independent national venture working to promote the voices, stories and views of the Australian scientific community to the news media when science is in the headlines. The centre is advised by a Science Advisory Panel and governed by a Board of Management. A wide variety of sectors support the not-for-profit centre with each contribution capped at 10% of total running costs. Foundation sponsors are Fairfax Holdings, the ABC, News Ltd, Macquarie Bank, PBL, the CSIRO, APN News & Media, RACI, ResMed Inc, Ernst & Young, Shell, Prime TV, Media Monitors, Innovative Research Universities Australia and the Government of SA. Gold Sponsors are John Winter & Slattery, BHP Billiton and the University of Adelaide.
